## **Altiplano Adds to Management Team, Sets Course for Growth**

EDMONTON, May 28, 2018 - Altiplano Minerals Ltd. (APN:TSXV) (ALTPF:OTCQB) (9AJ1:FWB) (“APN” or the “Company”) is very pleased to report that Mr. Salvatore Peralta has agreed to join the Company’s management team.

CEO John Williamson commented, “Salvatore Peralta is an experienced and highly motivated mining professional with a wide array of proven capabilities and an entrepreneurial drive that is well suited to our group. His initiative, leadership, creative energy and superior communication skills will be invaluable complements to our team as we seek to expand operations and capitalize on new opportunities in South America. We welcome him aboard as we set a course for growth and look forward to generating returns for shareholders.”

Mr. Peralta is a multilingual mining engineer with over ten years of professional experience in short-term and long-term mine planning, scheduling and production planning, drilling and blast planning, asset management, investigation and design of geotechnical and rock mechanics and general mine problem solving. He is a PhD graduate of McGill University in Mining and Materials Engineering (2018), where he worked as a Research Assistant, Teaching Assistant, Tutor, Proctor, News Reporter, Radio Host and Multimedia Communications Manager, while serving as a Vice-President of the Graduate Students Association.

Mr. Peralta was recruited by McGill University and awarded both the Werner Graupe International Fellowship and the McGill Engineering Doctoral Award based upon the excellence of his academic and research record, including publications, presentations and his potential to make a major impact on the quality of research in the Faculty of Engineering at McGill University and in the field of engineering. Prior to this, he was the Chief Mine Engineer with IMI Fabi S.p.A. of Lanzada, Italy, an innovative global manufacturer of high quality industrial talc products, where he was responsible for mine production, geotechnical monitoring, site investigation, mine planning and management. He received his Bachelor’s (2008) and Master’s (2011) Degrees in Mining Engineering from Cagliari University in Italy, where he was awarded numerous scholarships and completed an internship in Mining and Mineral Processing with Sarda Silicati S.R.L. of Florinas, Italy.
